The Warren Association is to meet this year at the Baptist Meeting-House in Sutton, the Tuesday after the first Wednesday in September, at 2 o'clock, P.M. For Baptist Education Society, see p. 95. That Society meet in Boston annually, on the last Wednesday in May, and at such other times and places as the Society may judge proper.

CONVENTION

of the CONGREGATIONAL MINISTERS in the
Commonwealth of Massachusetts.

THEIR Meeting is held in *Boston*, in the afternoon of the last Wednesday in *May* (or day of *Election*) annually; and on the following day at noon, after transacting the usual business of Convention, a sermon is delivered in public before them, and a collection made for the charitable purpose of relieving the indigent widows of deceased Clergymen.

The Convention is a voluntary Association, embracing all the Congregational Clergy of the Commonwealth, and vested with no particular authority or control over the Churches. They have opened friendly correspondence with the General Assembly of the Presbyterian Church in the Middle and Southern States, and with the representative bodies of the Congregational Ministers in Connecticut, New-Hampshire and Vermont, for the purposes of communicating and receiving from them whatever may tend to promote the common interest of Christianity,

A standing Committee of Convention have been appointed for the purpose of certifying the good character and qualifications of Ministers and Candidates who may travel into other States; and an agreement has been entered into between the Convention and the other representative bodies of Ministers in other States, mutually to communicate the names of the Committees for this purpose. Every certificate must be signed by one gentleman at least of that Committee, from whose bounds the person recommended travels.

The Committee in Massachusetts consists of the following Gentlemen, viz.

The Convention "earnestly recommend to all young gentlemen, who design to devote themselves to the work of the ministry, to spend that portion of time in the study of divinity, which improved and judicious advisers shall think necessary to qualify them for public teachers."

The Congregational Ministers throughout the Commonwealth, with some exceptions, are associated, and have regular and stated meetings for fellowship and mutual improvement. The Convention have passed a vote, requesting the Moderator or Scribe of the several Associations throughout the Commonwealth, to forward to the Scribe of the Convention, a correct list of the members of their respective Associations, with the name of the Scribe of each, and of the Candidates presented by them; and have directed that the Scribe of the Convention procure the insertion of the several lists in the Massachusetts Register.

The Convention, solicitous to collect and preserve accurate documents for a *History of their Churches*, have passed a vote, that each of the Congregational Ministers in Massachusetts be requested to compile a history of his own Church, and of those in his vicinity which may happen to be vacant, and to make returns to the Scribe of the Convention. It is hoped, this important request will not pass unnoticed, but be productive of great good.

TREASURY DEPARTMENT,

Washington, September 1st, 1800.

Public Notice is hereby given,

In pursuance of an Act of Congress, passed on the 23d day of April, one thousand eight hundred, entitled, "an Act to establish a General Stamp-Office."

I.

THAT a General Stamp-Office is now established at the seat of government, in the city of Washington, from whence there will issue, from and after the date hereof (upon the application of the Supervisors of the Revenue, under whose management the collection of the stamp duties is placed) any quantities of paper, parchment and vellum, marked or stamped, and duly counter-stamped, with the rates of duty which are demandable by law : [See Page 158.

II.

That the power of the Supervisors of the Revenue to mark or stamp any vellum, parchment or paper chargeable with duty, will cease and determine from and after six months from the date hereof, to wit, on the last day of February, 1801.

III.

That, if any persons shall, after the last day of February, 1801, have in their custody or possession, any vellum, parchment or paper, marked or stamped by the Supervisors of the Revenue, upon which any matter or thing, charged with duty, shall not have been written or printed, they may at any time *within the space of sixty days after the said last day of February, 1801*, bring or send such vellum, parchment and paper, unto some office of inspection, and in lieu thereof, receive a like quantity or value of vellum, parchment and paper, duly stamped in pursuance of the act herein before recited. And in case any person shall neglect or refuse, within the time aforesaid, to bring or cause to be brought unto some officer of inspection, any such vellum, parchment or paper, it is hereby declared, that the same thereafter will be of no other effect or use, than if it had never been marked or stamp-

DIRECTIONS FOR MARINERS.

MR. WILLIAM LORD, of *Stonington-Point*, has erected an iron spear, about 13 feet long, with a white vane on the top, upon the rock of *Latimer*, in *Fisher's-Island-Sound*. The deepest channel is to the northward of the rock. This gentleman has it in contemplation, if suitable encouragement should be given by gentlemen from the eastward and westward (who are owners of navigation, and are constantly passing the Sound) to erect a spear upon what is called *The Tail of Watch-Hill-Reef*—another upon *Katumacum-Rock*, upon the same Reef—one upon *Ellis'-Reef*, which lies off *Ram-Island*; and is almost in the middle of the Sound. These rocks are seldom, any of them, out of water, and much in the way of Coasters up and down the Sound, who are unacquainted.

Summary of the Method of Treatment, to be used with Persons apparently dead from drowning, &c.

CONVEY the person to the nearest convenient house, with his head raised: Strip and dry him as quick as possible; clean the mouth and nostrils from froth, and mud—If a child, let him be placed between two persons, naked, in a hot bed—If an adult, lay him on a hot blanket or bed, and, in cold weather, near a fire—in warm weather, the air should be freely admitted into the room. The body is next to be gently rubbed with warm woollen cloths, sprinkled with spirits, if at hand, otherwise dry. A heated warming-pan may be now lightly moved over the back, properly covered with a blanket; and the body, if of a child, is to be gently shook every few minutes: Whilst these means are using, one or two assistants are to be employed in blowing up tobacco-smoke into the fundament, with the instrument provided for the purpose, or a tobacco pipe, if that cannot be had—the bowl filled with tobacco and properly lighted, being covered with a handkerchief, or piece of linen, so as to defend the mouth of the assistant in blowing: Bathe the breast with hot rum, and persist in the use of these means for several hours. If no signs of life should then appear, let the body be kept warm several hours longer, with hot bricks, or vessels of hot water, applied to the palms of the hands, and soles of the feet, for a longer or shorter time, as the circumstances of the case may be.

The too customary method of rolling on a barrel, suspending by the feet, and every other violent mode of agitation, particularly in removing the body from the water, should be most carefully avoided.

The above mentioned method of treatment is to be made use of with vigour for several hours, although no favorable circumstances should arise; for it is a vulgar and dangerous opinion, to suppose persons are irrecoverable, because life does not soon make its appearance; and upon this opinion, an immense number of the seemingly dead have been committed to the grave, who might have been *restored to life by resolution and perseverance* in the above plan of treatment.

SUSPENDED ANIMATION.

"Death may usurp on Nature many hours,
And yet the fire of life kindle again
The o'erprest spirits."

Shakespeare.

IN the Spring of 1787, or '88, a young gentleman at Georgetown, (Maryland) who could not swim, accompanied by one or more of his companions, went into the river to bathe; he unfortunately stepped from a bank of sand, beyond his depth, and was drowned. Attempts were immediately made in various ways to obtain the body, by diving after it, searching with boat-hooks, poles, &c. and by a dragging seine; but all of them proved ineffectual. Similar exertions were made next day without success.

A gentleman mentioned, that he had read of the bodies of drowned persons being discovered by means of quicksilver placed in a quill, and attached to a loaf of warm bread. This appeared so chimerical a project, that the bystanders ridiculed the idea. He observed that the experiment might easily be made, and could do no injury. A quill was prepared, filled with quicksilver, and inserted in a loaf of warm bread.

Some persons then got into a boat, and placed the bread on the water so as to be carried with the current in a direction towards the body; when it had floated 10 or 15 yards it became stationary, and in a short time the body ascended and floated on the top of the water, to the great astonishment of the spectators. The body was under water 16 or 18 hours.

The experiment above recorded, deserves a trial on similar occasions, and might even be the means of restoring life, by discovering drowned bodies soon after they have disappeared.

May not this singular phenomenon be accounted for in this simple manner? The bread is carried down by the current till it comes within the sphere of attraction between the body and the quicksilver; it is then brought by the same attraction over the body; and the specific gravity of the body being but little greater than that of the water, by the attraction of the quicksilver, a substance of very great specific gravity and proportionate attraction, the body rises to the water's surface.

HYMN composed by Mrs. MORTON, to be sung at
the Meetings of the HUMANE SOCIETY.

WHO from the gloomy shades of night,
When the last tear of hope is shed,
Can bid the soul return to light,
And break the slumber of the dead ?

II.

No human skill that heart can warm,
Which the cold blast of nature froze;
Recall to life the perish'd form;
The secret of the grave disclose.

III.

But thou, our saving God, we know,
Canst arm the mortal hand with pow'r,
To bid the stagnant pulses flow,
The animating heat restore.

IV.

Thy will, ere nature's tutor'd hand
Could with young life these limbs unfold,
Did the imprison'd brain expand,
And all its countless fibres told.

V.

As from the dust thy forming breath
Could the unconscious being raise,
So can the silent voice of death
Wake at thy call in songs of praise.

VI.

“ Since twice to die is ours alone,
And twice the birth of life to see,
O let us, suppliant at thy throne,
Devote our second life to thee.”

*The last verse is to be sung by those who have been restored to
life from apparent death.*

m A distinct comparative table of eleven other ports of entry, and 26 of delivery (population and other circumstances being equal) would, it is presumed, be in favour of Maine, in the number of vessels, tonnage, seamen, &c. Several more ports will be added to the list of 37, when the population and cultivation of the country require it. This presumption is founded on the fact, that in the first Federal Collection Law, Maine had only 29 ports enumerated. Nature has provided yet more harbours. It is confidently expected, that the late Census will give two additional Representatives to Maine.

v, d. Vermont and Delaware, will certainly gain, each, one additional Representative.

g Georgia has ceded large tracts of land to Congress; what the amount may be, we cannot now speak with accuracy, but it is supposed important deductions are to be made from the above quantity, as stated in several publications with a proportionate allowance for water.

k Kentucky will double its population and representation.

t Tennessee. By a State Census, in 1795, the population had increased to 77,262, including blacks. As it thus doubled in five years, it is expected again to double in the five succeeding years; or however, that it will at least send two additional Representatives.

n.w Jurisdiction of which ARTHUR ST. CLAIR is Gov.

M That of which WINTHROP SARGENT is Governor, part of which was lately ceded by the State of Georgia. Of its population we can say nothing with certainty; but it is supposed will send one Member to the next Congress.

In a publication at Portland, in 1794, it was stated, that

	Square Miles.
New-Hampshire contains about	10,937
Vermont, about	10,136
Massachusetts, about	9,765
New-Jersey, about	8,437
Connecticut, about	5,312
Maryland, about	14,062
York, Cumberland and Lincoln Counties,	14,843
Hancock and Washington, West of Schudook,	12,500
and that Delaware and Rhode-Island, added to- gether, are less than the county of Lincoln :	

[i. e. before Kennebeck County was taken from it.]

The concurrent opinions of several gentlemen having the best means of information, warrant the above statement.

Maine therefore exceeds either of the above nine old States, in territory, and in round numbers is equal to South-Carolina and Connecticut, added together; or New-Hampshire, Massachusetts and Vermont; or Maryland, New-Jersey, Delaware and Rhode-Island; or

New-Hampsh.	10,000	} Let the mind of the reader here con- template what will be the probable pop- ulation and resources of Maine twenty years hence, compared with the minor States.
Massachusetts,	10,000

Rhode-Island,	2000	
& Delaware,	2000	

The allowance for water in the several States may be thus :

Maine, from 4 to 5000 square miles. — New-Hampshire, " De-
duct 100,000 acres." [Dr. Belknap.] — Massachusetts, perhaps less
than 100,000 acres. — Connecticut, " 20th part is water and high-
ways." [Dr. Trumbull.] — Vermont, " a considerable deduction
must be made." [Dr. Williams.] — Maryland, " One 4th of Maryland
is water." [Dr. Morie.] — Perhaps the proportion of Narraganset-
Bay to Rhode-Island, is as great as Chesapeake to Maryland.

A General Description of the United States.

BY the definitive treaty of peace, signed at Paris, Sept. 3, 1783, the boundaries of the United States are fixed as follows: Northwardly, by Nova Scotia, Canada, and the Lakes; on the west by the Mississippi; on the south by East and West Florida; on the east by the Atlantic, including all islands within twenty leagues of the coast: extending from the 45th to the 32d degree of north latitude, and from the 67th to the 98th degree of west longitude in the most northerly part, and in the most southerly from the 80th to the 90th degree of ditto; containing 270,630 square miles. Great part of this territory is not under the jurisdiction of any particular State, but belongs to the Confederacy. These vacant lands Congress has laid out into ten new States, viz. The territory from the 45th degree to the Lake of the Woods, to be called *Sylvania*, i. e. *Woodland*. That under the 45th and 44th degrees, westward of Michigan, to be called *Michigania*: and that which is westward thereof within the peninsula formed by the Lakes of Michigan, Huron, St. Clair and Erie, to be called *Chersone-sus*, i. e. *Peninsula*. That under the 43d and 42d degrees to the westward, through which the Rock river runs, to be called *Assenisipia*, i. e. *Rocky State*; and that to the eastward, in which are the fountains of the Muskingum, the two Miamis, of Ohio, the Wabash, the Illinois and Sandusky rivers, to be called *Metropo-tamia*, i. e. *Head of the Rivers*. That under the 41st and 40th degrees, the western, through which the Illinois runs, to be called *Illinoia*: that next adjoining to the eastward, to be called *Saratoga*: and that between this last and Pennsylvania, to be called *Wash-ington*. That under the 39th and 38th degree, ad-jacent to which are the confluences of the rivers Wa-bash, Sewanee, Tanislee, Ohio, Illinois, Mississippi and Missouri, to be called *Polypotamia*, i. e. *Many Rivers*: and that to the eastward, farther up the Ohio, to be called *Pelispia*, i. e. *the Country of Skins*.

By an Act passed the last session of Congress, the whole of the above N. W. Territory was reduced into two temporary gov-ernments.

DESCRIPTION of the NEW ALMS-HOUSE.

THE new Alms-House at West-Boston is an oblong building, pleasantly situated on the bank of Charles River, measuring 270 feet front, and 56 feet deep. It consists of a base story, which is divided into three large kitchens and a number of commodious rooms, which may be improved for work-shops and other purposes. Above, are three upright stories, which give forty-eight rooms, 24 by 22 feet, and four stair-cases, 10 feet in width, leading through the several stories. In the centre is a hall, 40 feet by 50 feet, and a chapel above, of the same dimensions; each of them being about 15 feet in height. The large and arched windows are finished with fluted pilasters of the Ionic order. The outside walls are of large bricks, with white marble facias, imposts, and key-stones, and the roof covered with slate. Four brick partitions run through the building, in which stand the chimneys, containing a funnel for every room. The whole of the building is inclosed with brick walls and handsome gates. The front and rear yards are 80 feet by 280 feet. In the rear of the building is a convenient bathing-house, with many other appendages. The several sewers and drains lead into Charles River. The north front is finished in the same manner as the south front, and commands a beautiful prospect of Charles River Bridge and the whole town of Charlestown, as the south front does West-Boston Bridge and great part of the town of Cambridge.

thanks to those Gentlemen who have kindly given them in making the Register so far correct; but have to regret that several of their communications did not reach the season. In requesting a continuance of their favours, particularly desired, that their friends would forward information as early as the June session of the General Court or at farthest, during the Commencement week in which will enable them to begin the work in such season to produce the Register early in October.
